OVERVIEW

Students will explore the Black experience in cinema, music production, podcasting, live sound, and storytelling across disciplines. This course aims to provide students with the tools and resources necessary to create authentic media content using Apple products. Creating Content from the Streets to the Studio entails using iPhones, apps, and multimedia software to create professional music, film, and podcast content for career advancement and entrepreneurship.

PROGRAM HIGHLIGHTS

Services Offered By Industry Coaches
- Earn while you learn! Our microcredential program compensates learners upon completion.
- Insights from renowned faculty and industry experts.
- Obtain a generalized knowledge of screenwriting.
- Activities and assignments in each module demonstrate your understanding of concepts.
- New information is connected to existing knowledge and real-world tasks.
- Exposure to related Apple technology, applications, and productivity tools.

Services Offered By Industry Experts
- Personalized feedback, support, and network development
- Live weekly office hours with faculty and industry experts

WHO IS THE COURSE FOR?

This course is designed to cater to a diverse range of individuals with different skill levels and interests. Whether you are a novice, an intermediate learner, or an expert, you will find value in this course.

Aspiring Creators
Are you passionate about creating content but unsure of where to start? Are you fascinated by the Black experience in cinema, music production, podcasting, live sound, and storytelling? This program is an excellent opportunity for beginners to unlock their creative potential, find their authentic voice, and develop skills using Apple products.

Experienced Creators
Are you looking to refine your storytelling and technical abilities? Are you interested in expanding your knowledge of screenwriting, filmmaking, music production, podcasting, and live sound? This course is an excellent opportunity for intermediate learners to enhance their creativity, explore
various storytelling disciplines, and learn how to use the latest Apple technology to take their craft to the next level.

**Professional Creators**

Are you an established creator with a solid understanding of your audience and your craft? Are you interested in learning how to use Apple products to create authentic media content for career advancement and entrepreneurship? This course is an excellent opportunity for advanced learners to refine their skills, learn about mentorship, professionalism, entrepreneurship, career advancement, alternative career paths, internships, practicums, and externships, and explore ethical and legal considerations in the arts and entertainment industry.

**PROGRAM EXPECTATIONS**

Learners completing courses in the microcredential program are expected to:

- Complete the learning activities in the given timeframe.
- Dedicate the time necessary to complete learning activities and assignments in each module.
- Engage with material, other learners, and course facilitator(s).

**PROGRAM SCHEDULE**

**MODULE 1: Black Creatives: Reclaiming Our Story**

Students will critically analyze the Black experience from the perspective of the White gaze and the Black gaze. They will identify and understand the Black cultural perspective as a lens and vehicle in writing about and filming the Black experience. Creatives will explore the Black experience in cinema across historical eras from the early 20th century to the present day.

**MODULE 2: Creativity**

Students will explore their own creativity and learn how music, spoken word, and video can be used to express their unique voice. Through exercises and assignments, students will learn how to tap into their creativity and develop their own artistic vision to find their authentic voice.

**MODULE 3: Storytelling Across Disciplines**

Students will learn about the art of storytelling across various disciplines, including writing for the ear and writing for the eye. They will learn how to develop compelling narratives, how to structure their stories, and how to use different mediums to convey their message effectively.

**MODULE 4: Pocket to Production**

Students will learn about the technical aspects of each area of arts and entertainment, including the tools available on Apple products that can be used to create content. Students will learn how to develop their own creative process, from brainstorming ideas to executing a final product. Through hands-on projects, students will learn to take an idea and turn it into a tangible, polished product.

**MODULE 5: Video Production**

Students will learn about the technical aspects of video production, including filming, editing, and post-production. They will learn to use software like iMovie and Final Cut Pro to create polished, professional-looking videos. Through hands-on projects, students will gain practical experience using these tools to create their own content.
MODULE 6: Music Production, Podcasting, and Live Sound
Students will learn about the technical aspects of music production, podcasting, and live sound. They will learn how to use software like Garage Band and Logic Pro to create their own music, record podcasts, and mix live sound. Through hands-on projects, students will gain practical experience using these tools to create their own content.

MODULE 7: Mentorship, Professionalism, Entrepreneurship, Career Advancement, Alternative Career Paths, Internships, Practicums, and Externships
Students will learn about the various career paths available to them in the arts and entertainment industry. They will learn about the importance of mentorship, professionalism, and entrepreneurship in building a successful career. The module will also cover the benefits of internships, practicums, and externships in gaining valuable experience and advancing career opportunities.

MODULE 8: Ethics and Legal Elements
Students will learn about the ethical and legal considerations in the arts and entertainment industry. They will learn about copyright laws, intellectual property, and the importance of maintaining ethical practices in the industry. Through case studies and discussions, students will explore the complex ethical and legal issues that arise in the industry and learn how to navigate these challenges.

LEARNING ACTIVITIES
- Participants will take an active, committed approach to engage in learning activities that will expand concepts and help in developing dynamic and creative, culturally-informed stories.
- Are you interested in writing films, TV, novels, or stage plays? The beauty in the art of storytelling is how well these tools work for each person’s passion.
- Collaboration opportunities and networking.

LEARNING METHODS
- Challenge-based learning activities
- Industry experts and credentialed guest speakers provide a rich learning environment.
- Instructional methods that support diverse learners
- Activities and assessments that tap into learners’ prior knowledge and experience and encourage active learning
- Authentic assessments that include challenge-based learning, scenarios, and hands-on practice activities
- Encouraging learner motivation through use cases, projects, and challenge-based learning
- Scaffolding and chunking of information to support the learning of all students
- Transparency of course expectations and competencies is promoted so learners know what they will be learning and exactly what to do to learn the content
- Encouraging social learning through a learning community
- Continuous engagement and feedback
- Ease of access to learning materials through the use of a mobile-first learning platform

LEARNING ENRICHMENTS
- Personal reflection, journaling, play
- Practice activities
- Film, TV, and scene viewing
- Readings
- Hands-on projects

REQUIREMENTS: WEB-ENABLED COMPUTER, CURRENT INTERNET BROWSER
PROGRAM FACULTY
